## TO WHOM IT MAY CONCERN

This is to certify that Ms MARINA Germishuysen has been conducting the “Bound” curriculum at above-mentioned school since the beginning of 2<sup>nd</sup> Quarter of 2011.

The workshops was conducted in a multi-media fashion whereby the learners were shown graphic videos of the dangers and consequences of abusing the freedom of choice. The curriculum deals with all the aspects that our youth are faced with today.

Drug Abuse, HIV AIDS, risky sexual behaviour as well as the dangers of back street abortions. She also interacted with the learners through question and answer sessions in order to determine the impact of the knowledge imparted to the learners.

In the class when asking for feedback from the learners as to the efficacy of these workshops the response from the learners were very positive and in my discussions with my fellow colleague in Grade 10 Mr M. Kamedien we have determined a change in the mindset of the learners as a result of these workshops. Mr. Muchopa (grd 10's)

And Mr Madolo (HOD for LO) and Miss Pike (grd 12's) also commented on the change of behaviour w.r.t respect for self, peers and educators.

Because of the effectiveness of her workshops in changing the attitudes of the learners which we have struggled with in the normal classroom situation it is my earnest wish that she is able to continue these workshops to reach a larger audience at our school.

Yours faithfully

.....  
Virginia Mqondeki

Grade 8,9 and 10 Life Orientation Educator
